

Aventura Engineering & Construction Corp.

To Whom It May Concern:

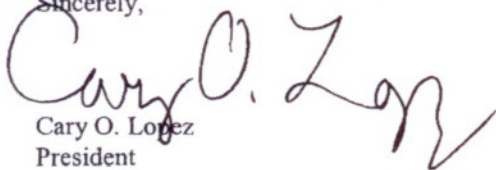

This letter is written in behalf of Comfort Tech Air Conditioning and Refrigeration. It has been our pleasure to work with Comfort Tech on five projects over the past five years. We have consistently found them to perform in the most professional manner. Comfort Tech's management team is knowledgeable, capable and responsive.

Our project experience with Comfort Tech includes projects at Miami International Airport which call for enhanced planning, scheduling and coordination due to the additional logistical requirements imposed by the airport environment as well as the heightened security measures. Comfort Tech has successfully met these additional challenges and continued to perform responsibly and efficiently.

In addition to a capable field staff, Comfort Tech's office staff can be counted on to provide the needed support to meet the billing and reporting requirements of the various governmental agencies for whom we work. This level of support and cooperation goes a long way toward successfully completing each project.

We are pleased to offer this letter of recommendation unreservedly in behalf of Comfort Tech Air Conditioning and Refrigeration. Feel free to contact me personally should you require any additional information.

Sincerely,

Cary O. Lopez
President
